

New faces: The Mitre 10 and CRT team has recently welcomed new administration officers Sally Sutherland and Brooke Cook.

## Fifteen minute DIY projects in preparation for silly season

With the weather warming up and October bringing footy finals, the Bathurst races and more BBQs with friends, it's a great time to get around to house repairs and give the place a spruce up.

Here's some DIY projects that will ensure your home is ready for the relatives when the silly season hits.

3. Add some greenery along the front footpath to add personality and make your entry even more inviting.
4. If the mailbox is looking a bit tired, give it a lick of fresh paint. A popular trend is using a contrasting colour or picking up a colour from your roof and guttering.
5. Install a pegboard on a garage wall to tidy up your tools and make more space.
6. Spray a little WD-40 on squeaky door hinges, moving the door back and forth to work in the lubricant.
7. Sweep cobwebs away from doors, windows and awnings.
8. Give the timber outdoor setting a new lease of life by rubbing it with oil.
9. Patch nail holes and wall imperfections with a putty knife and surfacing compound. For larger holes, place an adhesive patch over the area and spread an all-purpose drywall compound. Make sure the area is dry before painting.
10. Freshen up discoloured grout by giving it a good scrub with grout cleaner or touching up with a grout pen.
11. Walk around the house, inside and out, to check light globes and replace any that aren't working with energy efficient bulbs.
12. Fertilise the lawn to even out brown patches and help it grow stronger and greener.

### Dulux promotion

This spring, whenever you purchase 8 litres or more of Dulux paint you'll receive a FREE can of jelly beans\*.
