

## Welcome David

Offering vast experience as a trade consultant, David Glover (above) joined the Mitre 10 & CRT Wauchope team in mid-March. Formerly from Forbes, David loves Wauchope's community spirit and there are a lot of similarities with his hometown. Now living in King Creek, David is hoping to help expand our trades section and is looking forward to helping everyone from home handymen and women to local tradespeople.

## Autumn drenching

Now is the time to look at drenching. All cattle have what we call a nutritional "bank" balance. Part of this bank balance is used for blood supply, tissue and bone growth, calving and what is left can go into extra growth or production, whether it be meat or milk. On the other hand if there are parasites present, they also take a large withdrawal from the balance. By drenching cattle in autumn you will start to break the cycle of a large

build-up of parasites over spring. It is also the time to treat for liver fluke. We have a number of different products in the store and good supplies of Genesis Ultra.

## Did you know?

We now have a wide range of Allora Grain premium bird feeds right near the front counter. There are 20kg bags specially formulated for finch, parrots, budgies and canaries, all made with quality Australian ingredients.

## Accent Paints

Our paint specialist Darren Pead highly recommends Accent Paints. "If you're looking for outdoor paint, you can't go past their Solar Max range, which can be matched to all Colorbond colours," he said. Available in 1 litre, 2 litre and 4 litre tins, Accent Paints are exclusive to Mitre 10. The premium exterior paint offers 15 years protection.

## Tool sale ends April 17

Drop in and check out our tool sale before it ends on April 17. There's great products at great prices, buy only while stocks last. You'll find everything from paint brushes, work gloves and shovels to torches, spanner sets and screwdrivers.

## New pest controls

If mice, rats, spiders or cockies are a problem, come and try one of our new Harris pest control products. We have a wide range in stock, from mouse traps and rat glue traps to cockroach tablets and larger rodent traps.

**We are now open 8am to 2pm every Saturday and Sunday.**

## Planning winter pastures

Now is the time to come and see Craig about your winter pastures.

We specialise in rye, oats, clovers and all other pasture seeds.
