

Ground-breaking new products launched at Mitre 10 and CRT

A revolutionary range of termite and waterproof barrier products, which were invented in King Creek, hit our shelves late last month.

Term-Seal's national sales manager Ed Caruana (pictured left) said the range combines years of expertise and knowledge, resulting in products which are safe, eco-friendly, cost effective, durable and easy to install. They can also be used on new or existing structures.

The range is unique in that they are

both water and termite proof, patent protected and the only Australian manufactured product offering two-in-one application. While more than 100,000 homes have had Term-Seal professionally installed, the new range is for the DIY market.

There are no other dual-purpose products in the marketplace, however, the "Demise" professionally used termite bait station is now offered to the public in one complete package, with baits and attractants are included.

Items in the DIY Term-Seal range include: bait wood blocks; a bait station control agent; a bait station attractant; complete termite detection and elimination system; aqua block primer; gap, crack and joint reinforcement banding; termite barrier cartridges; CREO-FEN TEN termite and waterproof barrier; and Aqua Block Plus termite and water proof barrier.

All the Mitre 10 and CRT Wauchope team has been trained and look forward to assisting you.

Dog Pro Plus special

Trays of Dog Pro Plus '5 kinds of meat' are reduced from \$29 to \$23.95. Twelve cans per tray. Great value!

\$23.95

July cow hay deal

Winter has arrived and with the cold snap the summer grasses have stopped growing and have very little nutrition. A good supplementary feed is cow hay. We have secured a good supply and now have plenty at \$15 per bale during July.
