

Winter pastures

It's time to start planning for your winter pasture crops.

Although we've had a bumper summer season (best ever some say) once it cools off there won't be much goodness left and you'll need to plan your winter feed crops.

Our region is best suited to winter ryes, oats and clovers.

Wauchope Mitre 10 & CRT stocks a wide range to suit every budget. Craig Shaw, our pasture and fertiliser expert, can advise what's best suited to your situation whether it is one hectare or 100. We can also arrange a spreading service if you do not have all the equipment.

Did you know?

Wauchope Mitre 10 & CRT is now open from 7am-5pm Monday to Fridays and 8am to 2pm on weekends.

Rearing calves?

We have all the products you need to rear a healthy calf this autumn and highly recommend Maxcare milk premium replacer.

They say "a bag and a half gets you a good calf".

You can buy this product by the 1kg or by the bag for \$99.
