

Better nutrition = better performance = increased profitability

We've been getting lots of enquiries this month about products on the market to maximise calf growth rates.

For long-term productivity and profitability of your herd we recommend MaxCare, which helps calves reach target weights faster and maintain optimum health and productivity longer.

Better nutrition for your calves will deliver a better return on your investment—and an investment in the health and nutrition of your calves is an investment in the future profitability of your herd.

The aim of any calf-rearing program is to ensure that all calves are healthy and that replacement calves are productive over the course of their lives.

The effect of good nutrition provided at the start of a calf's life has a big impact in terms of:

- General health status
- Growth rate and weaning age
- Fertility and mating
- Production levels

Bago Bluff medals

Six of our Bago Bluff condiments scooped gold, silver and bronze medals in the prestigious Royal Hobart Fine Food Awards again this year. The good news came hot on the heels of winning the Local Produce category of the Greater Port Macquarie Business Awards last month.

Calf age	Twice daily feeding	Once daily feeding
First 24hrs	Colostrum	Colostrum
2 - 7 days	Two litres per feed, 125 gms MaxCare Premium CMR per litre of finished mix	MAN recommends all calves are fed twice per day for the first 7 days
8 - 21 days	2.5 litres per feed, 125 gms MaxCare Premium CMR per litre of finished mix	2.5 litres per feed 250gms MaxCare Premium CMR per litre of finished mix
22 days - weaning	Three litres per feed, 125 gms MaxCare Premium CMR per litre of finished mix	Three litres per feed, 250gms MaxCare Premium CMR per litre of finished mix

Mitre 10 & CRT
Wauchope
 1 Carrington Street
 (02) 6585 1655

Comboyne Rural Store
Thone Street
 (02) 6550 4007

Craig has been busy sourcing extra feed options given the dry weather and limiting livestock food at the moment. We have all your feed needs covered with these round bales.

With a range of quality of Oaten hay, these bales can vary in price depending on their quality.

If you are unable to pick up from store, Wauchope Mitre 10 and CRT have a delivery service that goes from Johns River to Gum Scrub and Yarras to Bellangry and everywhere in-between.

Come in and talk to our rural specialists Craig or Steve about supplementing your cattle feed this spring.
