Plow now for hire at Mitre 10 thanks to Hastings Landcare

Hastings Co-op and Hastings Landcare have partnered to offer a Yeoman's Picnic Plow for hire at Mitre 10 and CRT Wauchope.

The Yeoman's Plow is designed to be used across the contours of the land to slow and capture water run off.

It can be used to open up the soil to air, allowing deeper water penetration to accelerate soil biological activity and increase organic matter content in soil.

The main benefit is that it can be used to rip soil without causing any damage to the soil layer profiles.

While the plow is owned by Hastings Landcare, Hastings Co-op's Mitre 10 and CRT store is supporting the initiative by storing the plow and helping to lift it off and onto customers' vehicles.

For information about hiring the plow phone 6586 4465 or email office@hastingslandcare.org.au
