

Neat and convenient: New timber racking at Mitre 10

Home renovations

The sun is shining and the weather is warm, so it must be time for summer home renovations. For most homeowners summer is the optimal time to undertake improvements around the house, including the extensive to-do list you've been putting off.

The good news is not all renos demand lots of time or money.

Whether you're building a deck or knocking down a wall, Mitre 10 Wauchope has got you covered. We also have the right advice to get the job done right.

Start planning now

Although we've had a bumper summer season, once it cools off there won't be much goodness left and you'll need to plant your winter feed crops.

It might seem strange, but now is the perfect time to start planning for your winter pasture crops.

Our region is best suited to winter ryes, oats and clovers.

Wauchope Mitre 10 & CRT stocks a wide range to suit every budget.

Call in and chat to one of our rural specialists today or phone 6585 1655.

Handy new plough available for hire

Hastings Co-op and Hastings Landcare have partnered to offer a Yeoman's Picnic Plough for hire at Mitre 10 and CRT Wauchope.

The Yeoman's Plough is designed to be used across the contours of the land to slow and capture water run off.

It can be used to open up the soil to air, allowing deeper water penetration to accelerate soil biological activity and increase organic matter content in soil.

The main benefit is that it can be used to rip soil without causing any damage to the soil layer profiles.

While the plough is owned by Hastings Landcare, Hastings Co-op's Mitre 10 and CRT store is supporting the initiative by storing the plough and helping to lift it off and onto customers' vehicles.

For information about hiring the plough phone 6586 4465 or email office@hastingslandcare.org.au
