

Thank you to our valued customers who supported Twilight Tastings 2018

## Try our custom seed mixes

With the recent widespread rain, there's no better time to plant your winter pastures. Typically, the Mid North Coast has a winter/spring feed gap and the best way to overcome this is to plant pastures such as rye, oats, clover, brassica or chicory. Our trial site on Port Lane has had great results and we've developed exclusive custom mixes for our customers. To discuss your needs, call in and see our team of pasture experts at Mitre 10 and CRT.

## Exciting announcement

We are proud announce we are now exclusive agents for Roundup Ultramax 570g/L. The herbicide is a powerful 570 g/L glyphosate formulation, offering advanced performance and flexibility. Made to the highest quality standards, enhanced performance includes more comprehensive weed controlling capability, greater translocation qualities, and rainfastness.

## Mitre 10 and CRT specials - April 1 to 30
